## About EAGLE II

MAR, Incorporated (MAR) will perform services under the Department of Homeland Security (DHS) Enterprise Acquisition Gateway for Leading Edge Solutions II (EAGLE II) contract's unrestricted track of Functional Category 3, Independent Test, Validation, Verification, and Evaluation (IV&V).

Through this DHS vehicle MAR will provide services to include independent test, validation, and evaluation solutions to ensure that all IT products and services meet DHS security standards, and are tested and evaluated in accordance with all Federal security requirements. MAR and our Core Team members will deliver best practices, technologies, tools, to support quality and operational assessments, integration testing and system test and evaluation, including security certification and accreditation for IT systems.

Our services are supported by mature, government compliant administrative systems including accounting, security, human resources, and contracts. Continuous program and task order monitoring is provided through our ANSI compliant Earned Value Management (EVM) systems and Executive Dashboards.
